

## MARVOLUS

### CASE STUDY - LANG

Program: Calendar Spinner  
Benefit: Multi-Materials

Having used basic wire spinners for many years, Lang desired an elevated in-store execution for their premium calendars, with the added complication of significant weight-loading increase (>100lbs).

- Our design encompasses the tried & tested functionality of a heavy-duty spinner principal with the addition of wood features on base, corner uprights and header.
- Our wooden accent frame combined with a brushed metal logo elevates the premium value of this brand.
- We are now in our fourth year of production for this program.
