

SENSAPE

TAILORED AR PROJECT

Tailored AR project and full hardware integration with the Sensape Recognition Box (SRB).
Completely integrable into your hardware and software.
You have a very special design in mind or already have your own hardware that you would like to use for an AR project? Our smart technology can be completely integrated into existing peripherals and thus enables a perfectly tailored AR project according to your wishes and needs. Our modular design allows the camera and artificial intelligence to merge with your interior if desired.
Perfect for all your needs.

- Long-term installations
- Integration into existing systems
- Custom-made designs
- In-store installations (permanent installations)
